

I am a QA specialist with over 11 years of software testing experience for mobile and web applications, excelling in manual, exploratory, and automated testing. I hold a Bachelor's degree in Information Systems (IFAL), a specialization in Software Test Analysis (CIn/UFPE), and a post-graduate degree in Agile Testing (CESAR School).

Currently, I work as a Senior QA Consultant at CGI, where I lead quality and automation initiatives. Recently, I contributed to CGI's AI Enablement team, promoting generative AI best practices for QA, development, and documentation. I deliver internal Bootcamps on GitHub Copilot and AI tools, helping teams optimize testing, code generation, and quality processes.

Throughout my career, I have worked on high-impact projects at companies like Motorola, Samsung, and PayPal. I specialize in test automation, backend testing, data validation, and E2E testing using Playwright, Cypress, CodeceptJS, and Python. I have strong experience with regression, functional, and E2E testing, plus deep knowledge of BDD (Behavior Driven Development) and ATDD (Acceptance Test Driven Development) methodologies.

I am proficient with tools like Playwright, Cypress, Appium, Azure DevOps, JIRA, X-Ray, and have worked with languages including JavaScript, Python, Java, and C#. I value communication, critical thinking, and teamwork, and I'm passionate about elevating software quality through intelligent and scalable testing strategies.

SKILLS

Programming Languages	Javascript, Python, Java for Android, C#, Java, PHP, HTML, CSS
Frameworks	Playwright, Cypress, CodeceptJS, PyTest, Webdriver.io, Jest, Nemo, Selenium, Appium
Artificial Intelligence	Generative AI, GitHub Copilot, AI Enablement, Prompt Engineering
Database	MySQL, PostgreSQL, MongoDB, AWS S3
Tools	JIRA, Azure DevOps, Visual Studio Code, Android Studio, IntelliJ Idea, Git, GitLab, GitHub, X-Ray, Salesforce
Operational Systems	Windows, Mac OS, Linux Ubuntu
Others	Agile Methodologies, BDD, ATDD, Scrum, Kanban, CI/CD, Airflow
Soft Skills	Communication, Critical Thinking, Teamwork, Problem Solving, Leadership, Mentoring

PROFESSIONAL EXPERIENCE

Currently	CGI Senior Quality Assurance Consultant, Test Automation, AI Enablement, SHERBROOKE, QC, CANADA
September 2024	> Leading quality and automation initiatives with focus on scalable and strategic quality at scale. > E2E testing with Playwright and Cypress, CI/CD integration, and mentoring QA teams. > Contributing to CGI's AI Enablement team, promoting best practices for generative AI in QA, development, and documentation. > Delivering internal Bootcamps on GitHub Copilot and AI tools, helping teams optimize testing, code generation, and quality governance. > Developing automation strategies, ROI analysis, and integrating AI into development pipelines. PLAYWRIGHT CYPRESS PYTHON AI GENERATIVE AI GITHUB COPILOT CI/CD E2E TESTING MENTORING JIRA AZURE DEVOPS GITLAB
September 2024	CGI Senior Business Consultant, SHERBROOKE, QC, CANADA
October 2023	> Led backend testing and data validation for high-performance athletic apparel project. > Automated backend tests and performed data analysis using Python/Pandas. > Validated data across SQL databases, AWS S3, and Airflow pipelines. > Managed multiple small test automation teams and structured modular automation projects. > Applied BDD practices to improve collaboration between technical and business teams. > Generated test result reports and dashboards with advanced analytics. PYTHON PANDAS AWS S3 AIRFLOW SQL BACKEND TESTING BDD GITLAB CI/CD TEAM MANAGEMENT

October 2023 October 2021	CGI Quality Assurance Consultant, SHERBROOKE, QC, CANADA › Quality Assurance on public transportation project, focused on ticketing website and Salesforce integration. › Created test plans and executed manual and automated functional and E2E tests. › Automated test cases using JavaScript and CodeceptJS framework. › Applied ATDD practices to ensure alignment with acceptance criteria. › Validated Salesforce workflows and integrations, reporting test results and tracking defect resolution. JAVASCRIPT CODECEPTJS SALESFORCE ATDD JIRA CONFLUENCE XRAY WEBDRIVER POSTMAN POWERBI
April 2021 April 2021	PayPal Quality Assurance Engineer, Test Automation, Web Testing, REMOTE WORK, BRAZIL › Quality Engineer at PayPal, working with web applications and services. › Automation of test cases using JavaScript language with different frameworks (React Testing Library, Cucumber, Jest, Nemo, Webdriver.io / Selenium, Cypress). › Applied BDD methodology using Gherkin syntax. › Doing basic Continuous Integration (CI) / Continuous Delivery (CD) using GitHub. › Execution of manual and automatic test cases. › Work with different techniques and types of functional tests : Black Box, White Box, Regression, Unit, End-to-End. JIRA CONFLUENCE GITHUB REACTJS JAVASCRIPT TYPESCRIPT REACT TESTING LIBRARY JEST NEMO WEBDRIVER.IO SELENIUM CYPRESS BDD CUCUMBER CI/CD.
April 2021 May 2018	SIDIA Test Developer Android, Test Automation, Google Approval , MANAUS, AM, BRAZIL › Test Developer at SIDIA - Samsung focusing on mobile applications and services. › Review of results submitted to Google Acceptance tests (CTS, GTS, STS, etc.) › Execution of Google Acceptance tests (CTS, GTS, STS, etc.). › Execution of manual and automatic test cases based on the Android Compatibility Definition Document (CDD). › Carrier Validation tests for North and Latin American operators on 2G / 3G / 4G networks using Rohde & Schwarz mobile network simulators. › Automation of test cases using UI Automator / Java / C# › Analysis and creation of test plans and test cases. › Work with different techniques and types of functional tests : Black Box, Regression, Integration, Usability, Sanity, End-to-End, and Exploratory. JIRA CONFLUENCE JAVA UI AUTOMATOR C# GOOGLE APPROVAL TELECOM QXDM QPST.
May 2018 March 2015	CIn-UFPE Test Engineer, IQA, Test Automation, Product Test, Moto Voice Feature, RECIFE, PE, BRAZIL › Test Engineer at CIn/UFPE - Motorola Project focused on mobile applications and services. › Validation and execution of Localization and Internationalization tests in more than 50 languages on Android devices. › Analysis and creation of test plans and test cases. › Automation of test cases using UI Automator, Java. › Execution of manual and automated tests. › Different types and techniques of tests in mobile devices : Regression, Sanity, Performance, Usability, Functionality, and Exploratory. › Elaboration and execution of test cases simulating environments for different voice commands. Moto Voice feature tests. JIRA DALEK CONFLUENCE ADB JAVA FOR ANDROID UI AUTOMATOR JENKINS
April 2015 September 2014	CIn-UFPE Scholarship for the Sequential Course in Test Analysis, Tester, RECIFE, PE, BRAZIL › Scholarship for the Sequential Course in Test Analysis at CIn/UFPE - Motorola Project focused on mobile applications and services. › Learned about software testing processes. › Execution of manual tests for different types of tests in mobile devices like regression, sanity, performance, usability, functionality, and exploratory. Android Web Jira Test Central Dalek
April 2015 August 2012	UEBee Smart Solutions Partner, Web Developer, MACEIÓ, AL, BRAZIL › Partner and web developer of the company focused on developing online computer systems (websites, e-commerce, online systems, portals, blogs). › Creation of arts and layouts for online systems. February 2013 February 2011	Zampieri Real State Information Technology Analyst, Network Management, MACEIÓ, AL, BRAZIL - Information Technology Analyst and Network Management at Zampieri Real Estate in the main building and branch office. - Administration and network support (Systems and users). - Technical support (Maintenance of software and hardware). - Helpdesk (Training and support for employees). - Web development (Maintenance of company website). - Diagram of art (Creation and edition of graphic material for printed newspaper). WINDOWS SERVER LINUX WEB SERVER HTML CSS COREL DRAW
January 2011 August 2010	IBGE Censitary Agent of Informatics, Intranet Developer, MACEIÓ, AL, BRAZIL - Censitary Agent of Informatics in IBGE during the 2010 Census. - Development of intranet site. - Technical support (Maintenance of computers and equipment). - Transmission of census data. - Administration of local computer network. HTML CSS JAVASCRIPT PHP

FORMATION

2019-2021	Postgraduate in Agile Testing Methodologies at CESAR School in Manaus.
2014-2015	Especialization in Software Engineering with emphasis on Test Analysis at CIn-UFPE in partnership with Motorola Mobility.
2009-2013	Bachelor's degree, Information Systems from the Federal Institute of Education, Science and Technology of Alagoas (IFAL).

CERTIFICATION

2026	Certified SAFe® 6 DevOps Practitioner Credential ID 4c507a03-2e00-43b0-804d-88abf645f46c
2021	Certified Tester Foundation Level (CTFL) Credential ID 20-CTFL-189270-17
2020	Scrum Foundations Professional Certificate (SFPC) Credential ID TLSZTWVGGHH-MMMYQTST-RPFDRRSFSL

LANGUAGES

- Portuguese - Fluent / Native
- English - Fluent / Advanced
- French - Basic / Intermediate

INDUSTRY EXPERIENCE

- Mobile Systems and Applications (Android)
- Web Applications and Services
- Payment Systems
- Test Automation and QA at Scale
- AI Integration in QA Processes

TECHNICAL SPECIALIZATIONS

- Test Automation and Strategy
- Agile Methodologies (Scrum, Kanban)
- BDD & ATDD Practices
- AI and Generative AI in QA

AREAS OF EXPERTISE

- Test Planning and Execution
- Automation Framework Development
- Backend and API Testing
- Data Validation (SQL, AWS S3, Airflow)
- Team Leadership and Mentoring
